

Below is an RAL color-chart...the standard colors of the powdercoating world. Although a good starting point for choosing a color for powdercoating, it is ONLY the "tip of the iceberg"! There is a dizzying array of colors, textures, marbles, pearls, satins, candies, "flip-flops", and wrinkles available. If there is a color, texture, or finish that you want...we can get it!

Remember that the colors shown in the chart below will vary as to your monitor, so we don't represent them as gospel. Any good auto/truck paint dealer (PPG, Dupont, Sikkens, NAPA) has a big, more accurate display of these RAL colors if you are uncertain as to the actual tint.

RAL 1000	RAL 1018	RAL 2008	RAL 3014
RAL 1001	RAL 1019	RAL 2010	RAL 3015
RAL 1002	RAL 1020	RAL 2011	RAL 3016
RAL 1003	RAL 1021	RAL 2012	RAL 3017
RAL 1004	RAL 1024	RAL 3000	RAL 3018
